The following aesthetic procedures will be taught in our course:

- **FACIALS**
- **SKINCARE**
- **WAXING**
- **BROW AND LASH DESIGN**
- **FACIAL MAKEUP**

Grading & Certification

Grading will be broken down by topic with a total score of 100. Students must maintain an 85% to graduate. Upon completion of the course, each student will receive their transcript and certificate.

OUR EDUCATION BREAKDOWN

We believe with aesthetics, it is best to pack theory with hands-on experience therefore information is not lost or forgotten between these two learning experiences. Our aesthetics courses are lecture-lab courses in which topics are presented by the instructor before hands-on work.

MODEL WORK

We encourage students to recruit their models. However, if this is an issue we can help recruit the models for you. To graduate, students must complete the model work required in the chart below:

IS AESTHETICS A LUCRATIVE CAREER CHOICE?

YES! Success in aesthetics is built on something very valuable: An incredible desire to succeed, to have the life that I believe we all deserve, and on a strong determination to never give up. If you have a passion for beauty and helping others, aesthetics can provide unlimited earning potential. Earning potential is based on how many days a week you wish to work, where you set your rates and your expenses. It is possible to make a six-figure commission, however, the average salary for an esthetician is \$42,980.

Earning Potential

The average aesthetics procedure today costs between \$100 and \$400 (USD) and takes around 1-2 hours to complete. \$20-60 per hour is achievable as an esthetician. Estheticians that are in demand can do as many as 7-8 procedures in a single day.

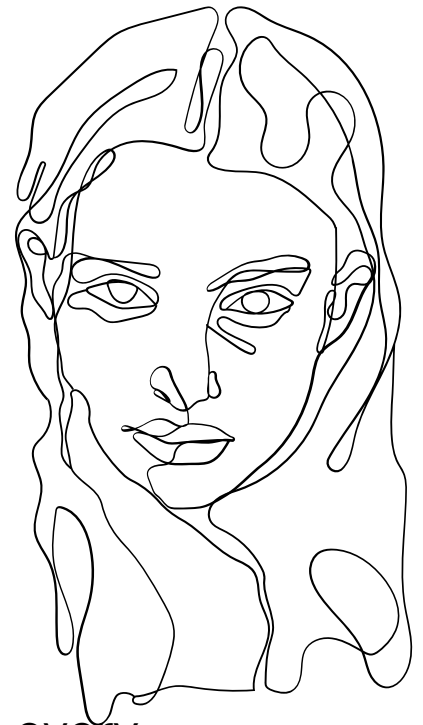

WHY AESTHETICS?

Aesthetics is our passion. It allows us to help others that need help to gain confidence when they wake up in the morning.

Imagine Learning a Skill that Allows You:

- Be your own boss
- Set your own hours
- Take control of your finances
- Stop living pay check to pay check
- Pay off debt
- Have a career that you love coming to every day

That's the reality for an exclusive number of estheticians currently working as you read.

WHAT IS NEEDED

TO HAVE A LEGAL & SUCCESSFUL CAREER?

An aesthetics career is lucrative and fulfilling. However, before making any investment to go down this career path, please look over the following requirements and ensure you are a good fit! Becoming a modern esthetician requires an individual to dedicate themselves to practice and master knowledge in skincare and treatments. As the saying goes, practice makes perfect. Keep in mind- a hands-on training is imperative to see and have real-time feedback.

Education

- Dependent on your Country/State/County
- HANDS-ON TRAINING required with a skilled esthetician

Physical Skills

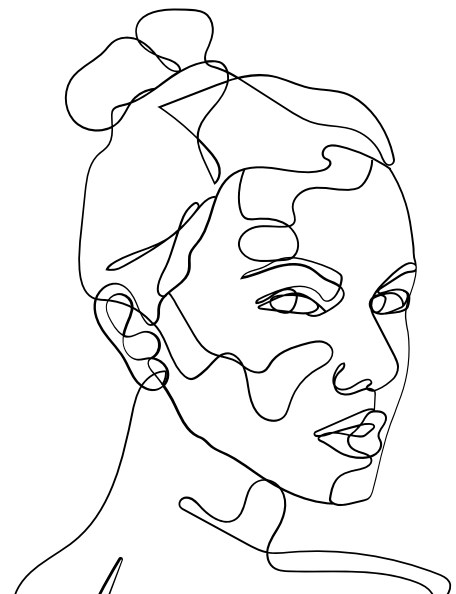

- Eyesight
- Eye-Hand Coordination
- Esthetic Vision

Mental Skills

- Problem Solver
- Critical Thinker

Personality

- Strong Communicator
- Patient Listener
- Hard Worker
- Professional Demeanor
- Customer Service Oriented

There is not a fast way to learn quality aesthetics. It is why the only way to become great at this craft is to invest the time in live training from an accredited and approved academy. The risks are too high to do bad work at the total expense of the client.

There is the risk of learning from a non-accredited academy or instructor or from youtube or a prerecorded video or even by taking a course where the instructor does not have a beautiful portfolio themselves.

Welcome

See you soon

I built my clinic to become one of the top clinics in the Denver metro area for our medspa menu. After meeting many prospective clients begging us for help with poorly completed treatments at other local practices, our team added to our mission to help other professionals. Our goal with the academy is to gift the world elite esthetic professionals. Our students learn the techniques our clients love. Every technique we teach is safe for the integrity of the skin and has proven to give results that are quality and long-lasting.
